PROFESSIONAL SUMMARY

Junior Frontend Developer with hands-on experience building responsive, business-oriented web interfaces with React, Next.js App Router, TypeScript, and Tailwind CSS. I have worked on real and collaborative projects involving forms, authentication, protected routes, REST APIs, data persistence, email automation, Supabase, Firebase, and Vercel/Netlify deployments. Focused on reusable components, accessibility, maintainable code, and product-oriented problem solving.

CORE SKILLS

Frontend: HTML5, CSS3, JavaScript ES6+, TypeScript, React, Next.js App Router

UI & styling: Tailwind CSS v4, Responsive Design, Bootstrap, SCSS/Sass, CSS Modules

Integrations: Supabase, Firebase, REST APIs, Resend, Google Sheets automation, localStorage

Tools: Git, GitHub, Vercel, Netlify, GitHub Pages, npm, Jira, VS Code, DevTools

Best practices: Component architecture, accessibility, basic SEO, Open Graph, protected routes, forms

Languages: Spanish native, English professional working proficiency

SELECTED PROJECTS

Estudio Jurídico Lachat - *Next.js* | *TypeScript* | *Tailwind CSS v4* | *Supabase* | *Resend* | *Vercel*

Migrated and developed a professional law firm landing page with responsive UI, SEO metadata, custom domain, consultation form with file uploads, email notifications, and automated Google Sheets lead logging.
